

## **Nursery Checklist**

Create a cozy nursery for your baby that's comfortable for you, too. Make a sturdy crib your starting point and cover it with baby-soft bedding. Add a changing table that converts to a dresser when your child gets older. Include a dresser or armoire that provides room to store your baby's clothing and bedding.

Soften the space with matching drapes and rods, and set up a rocker or glider to sink into when you both need soothing. Stock the room with shelves, baskets and bins to keep things organized, and pull it all together with a soft rug that invites little hands and knees to crawl on it. Hang personal photos and artwork on the walls, and you've created a restful sanctuary you can both appreciate.

### **BEDDING**

- toddler quilt
- mobile
- crib fitted sheets
- crib bed skirt
- blankets
- waterproof mattress pad

### **FURNITURE**

- crib
- crib mattress
